

# Mart Roosileht

## Crane operator

I am a crane operator with experience in operating heavy machinery, including Mantsinen material handlers. My goal is to develop further in this field, acquire new skills, and work with professionals who inspire high performance. I am committed to continuous learning and eager to work on interesting and ambitious projects where I can improve my skills and advance my career in crane operation.

- Adherence to safety regulations
- Heavy machinery operation
- Load capacity management
- Experience handling oversized cargo

## Experience

### 2020 - Present

AS SilSteve, Sillamäe

#### Operator

At my previous job as a crane operator at a port terminal, I operated material handlers and cranes for loading and unloading ships. I was responsible for handling containers, unloading railcars, and ensuring smooth and efficient operations at the container terminal. In addition, I served as the shift supervisor, overseeing operations during my shifts, ensuring adherence to safety regulations, and coordinating the work of the team. My role involved maintaining a high level of organization, managing the loading/unloading processes, and optimizing the workflow to meet deadlines while ensuring safety standards were met.

### 2018 - 2020

OY Ran Rakenus, Helsinki

#### Builder

As a carpenter, I performed the installation and assembly of structures, doors, windows, and roofing, using woodworking equipment. I also managed a small team, organizing work processes and ensuring adherence to deadlines and safety standards on site.

### 2016 - 2018

OY Sanistar, Helsinki

#### Builder

Worked as a carpenter and painter, performing installation of structures, finishing work, and painting surfaces.

### 2013 - 2016

AS Silsteve, Sillamäe

#### Operator

### 2011 - 2013

AS Betoneks, Tallinn

#### Manufacturer of concrete blocks

### 2007 - 2011

LTH-BAAS, Tallinn

#### Welder

### 2006 - 2007

BLRT Grupp, Tallinn

#### Welder
